

Project Design Phase-II Data Flow Diagram & User Stories

Date	02 July 2026
Team ID	
Project Name	Food Ordering Behaviour and Consumer Trends
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer	Restaurant Search	US-01	As a customer, I want to search restaurants by cuisine, rating, and price so that I can quickly find my preferred restaurant.	User can successfully filter restaurants based on selected criteria.	High	Release 1.0
Customer	Order Tracking	US-02	As a customer, I want to track my food order in real time so that I know when it will be delivered.	Customer can view the current delivery status and estimated delivery time.	High	Release 1.0
Restaurant Owner	Customer Analytics Dashboard	US-03	As a restaurant owner, I want to view customer ordering trends so that I can make better business decisions.	Dashboard displays order trends, popular cuisines, peak order times, and customer preferences.	Medium	Release 1.1
